Vorläufige Bemerkungen

zur Lieferung 1 und 2. S. 1—78.

Meine absicht ist die Assurbanipal—texte soweit zugänglich, zu sameln, um damit endlich eine verwertung des grofsen materials zu ermöglichen, welches die Assurbanipal-inschriften bieten.

Die zwei ersten lieferungen enthalten den text des Rassam—prisma's [RM 1] und die bruchstücke des gewöhlich als prisma [cylinder] B bezeichneten textes, soweit sie in den drei ersten bänden des kataloges der Kuyunjik—sammlung festgestellt worden sind. es fehlen jedoch augenscheinlich noch manche von George Smith benutzte stücke, welche entweder noch nicht identificirt sind, oder deren nennung in späteren bänden des kataloges zu erwarten sein würde. solche etwa noch auftauchenden stücke sollen in einer ergänzungsabtheilung veröffentlicht werden, welche auch den zusammengestellten text der nur in einzelnen bruchstücken erhaltenen inschriften bringen soll.

Die verwirklichung des planes hängt in erster linie von der zugänglichkeit der originale ab. bei meinen aufenthalten in **London** im august und september 1893 und 1894 konnte ich we-

der das prisma RM 1 noch das nächst B zu gebende prisma C [K 1794] erhalten, da nach der mir gewordenen auskunft „grössere in den schaukästen des British Museum ausgestellte gegenstände" nicht zur benutzung herausgegeben werden dürften. infolge dessen konnte der text von RM 1 nur nach V R 1–10 mit verbesserung derjenigen stellen gegeben werden, welche ohne entfernung des originals von seinem aufstellungsplatze durch das glas des schaukastens hindurch erkennbar waren. es konnten deshalb die zeichen  und , von denen das erstere in V R durchgängig gegeben ist, sowie  wofür doch wol mit den übrigen texten  zu lesen ist, nicht richtig auseinander gehalten werden.

Verbesserungen.
